

# A Lasting Gift of Comfort

## Help Replace Essential Resident Care Beds

### A Simple Need. A Profound Impact.

At Trillium House, every detail is centered on comfort, dignity, and compassionate care while providing 24-hour onsite hospice support. For individuals at the end of life, even the smallest discomfort can feel overwhelming—and the right equipment can make all the difference.

Today, we are seeking support to replace eight resident care beds that have exceeded their life expectancy and no longer meet the needs of modern hospice support. Total investment to support residents and families: \$190,058.

### The Importance of Your Support

Your gift helps ensure that: a resident can rest comfortably and with dignity; a family can focus on meaningful time together; a caregiver can provide safe, attentive, high-quality care; and access to compassionate care remains available — regardless of financial hardship.

At Trillium House, many residents rely on financial assistance to receive care. Your support helps make equitable, high-quality end-of-life care possible for all.

### Why New Beds Matter

Trillium House has identified the **Stryker Corporation ProCuity LE bed with IsoTour Premium surface and ProCare features** as the best solution to meet resident needs and support high-quality care. Benefits include:

- Greater **comfort and pain support** for residents with complex medical needs
- Built-in scales to **monitor health** without unnecessary movement
- Pressure **injury prevention** surfaces, protecting fragile skin
- Lower height of 11.5" and design features to **reduce potential for falls**
- Safer repositioning and **mobility support** for both residents and caregivers
- Improved caregiving efficiency, allowing staff to focus on **presence and connection**

These features (plus an 8-10 year warranty on the mattress and bed respectively) help ensure that every resident experiences comfort, safety, and dignity — every day.

### Ways to Support

**Sponsor a Bed:** \$23,757

**Co-Sponsor a Bed:**  
Partner with others

**Give at Any Level:**  
Every contribution is one step closer to comfort

*Recognition opportunities are available for individuals, families, foundations, and corporate partners.*
